-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "the motor gear" in line 8 of the claim. There is insufficient antecedent basis for this limitation in the claim. For purposes of examination, the Office understands "the motor gear" to be a gear driven by the motor.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1–15 are rejected under 35 U.S.C. 102(b) as being anticipated by Fried, 3,816,033.

Fried discloses a pump assembly with a motor M with drive gear 28A mounted on base plate 11a mounted to wall 15 where the motor is on one side of wall 15 and the pumps are on the other (fig. 2), a pump plate 40 detachably mounted to the base plate at bead portions 24, 25 and movable between a first position (fig. 6) and a second position (fig. 7), where a first pump unit 27 is mounted on the plate and has a gear 55 in

Art Unit: 3746

mesh with motor gear 33 in the first position, and a second pump unit is in mesh with motor gear 34 in the second position, the gears of the pumps at a common end, and where there are a variety of these pump units 27 available and capable of being selectively engaged or disengaged such that when the first pump is engaged, the second pump can be disengaged and vice versa (col. 6, ll. 7-20) depending on the positions of the pump plates (figs . 5-7), the plate movable between positions by adjusting a pin or bead 24,25 in the base plate to slots or recesses 105,106 in the pump plate, secured into position by a hand-actuated knob or latch member 100, the method of changing the pump assembly from a first to second pump comprising mounting the pumps 27 to pump plates 40, mounting the plate to base plate 11a and moving it to a first position (fig. 6) whereby the first pump is engaged with the motor, and moving the plate to a second position (fig. 5) whereby the first pump is disengaged while a second pump can be engaged and vice versa(col. 6, ll. 7-20), with no restriction on the time frame in which this can occur, hence the two can be moved simultaneously.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrick Hamo whose telephone number is 571-272-3492. The examiner can normally be reached on M-F 8:30-5.
